

# “The Path of Inclusion”

SPARK GRANT

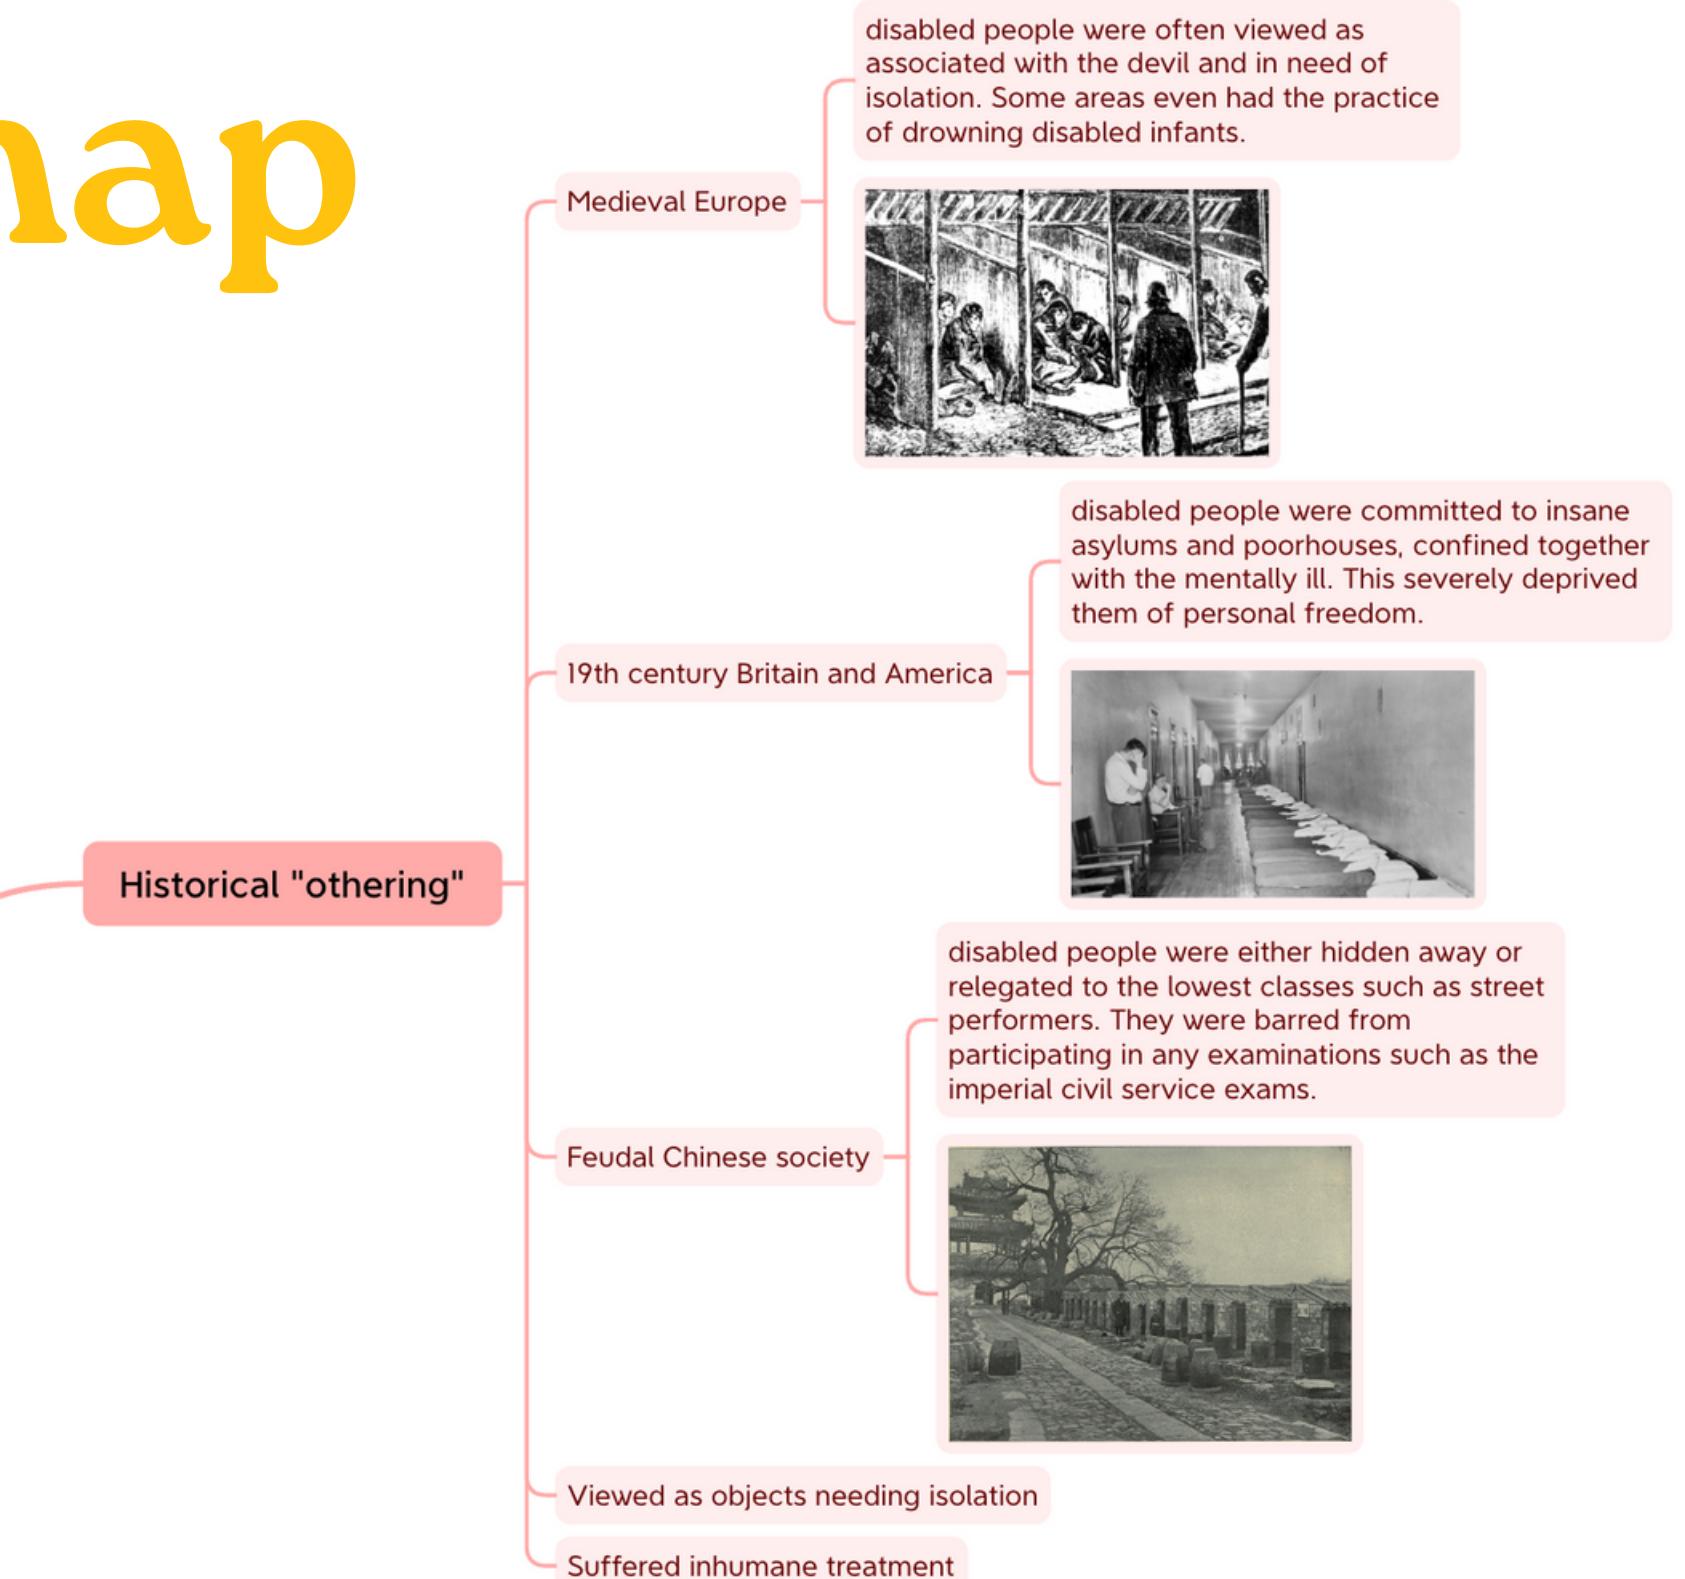

**Hosted By:**

Yinan Xue

# Project Mindmap

## Injustice on the disabled

# Project Overview

## Historical Context

- Research shows that disabled individuals have endured isolation, confinement, and rights deprivation throughout history.
- Examples include medieval Europe associating them with evil and 19th-century America relegating them to asylums.

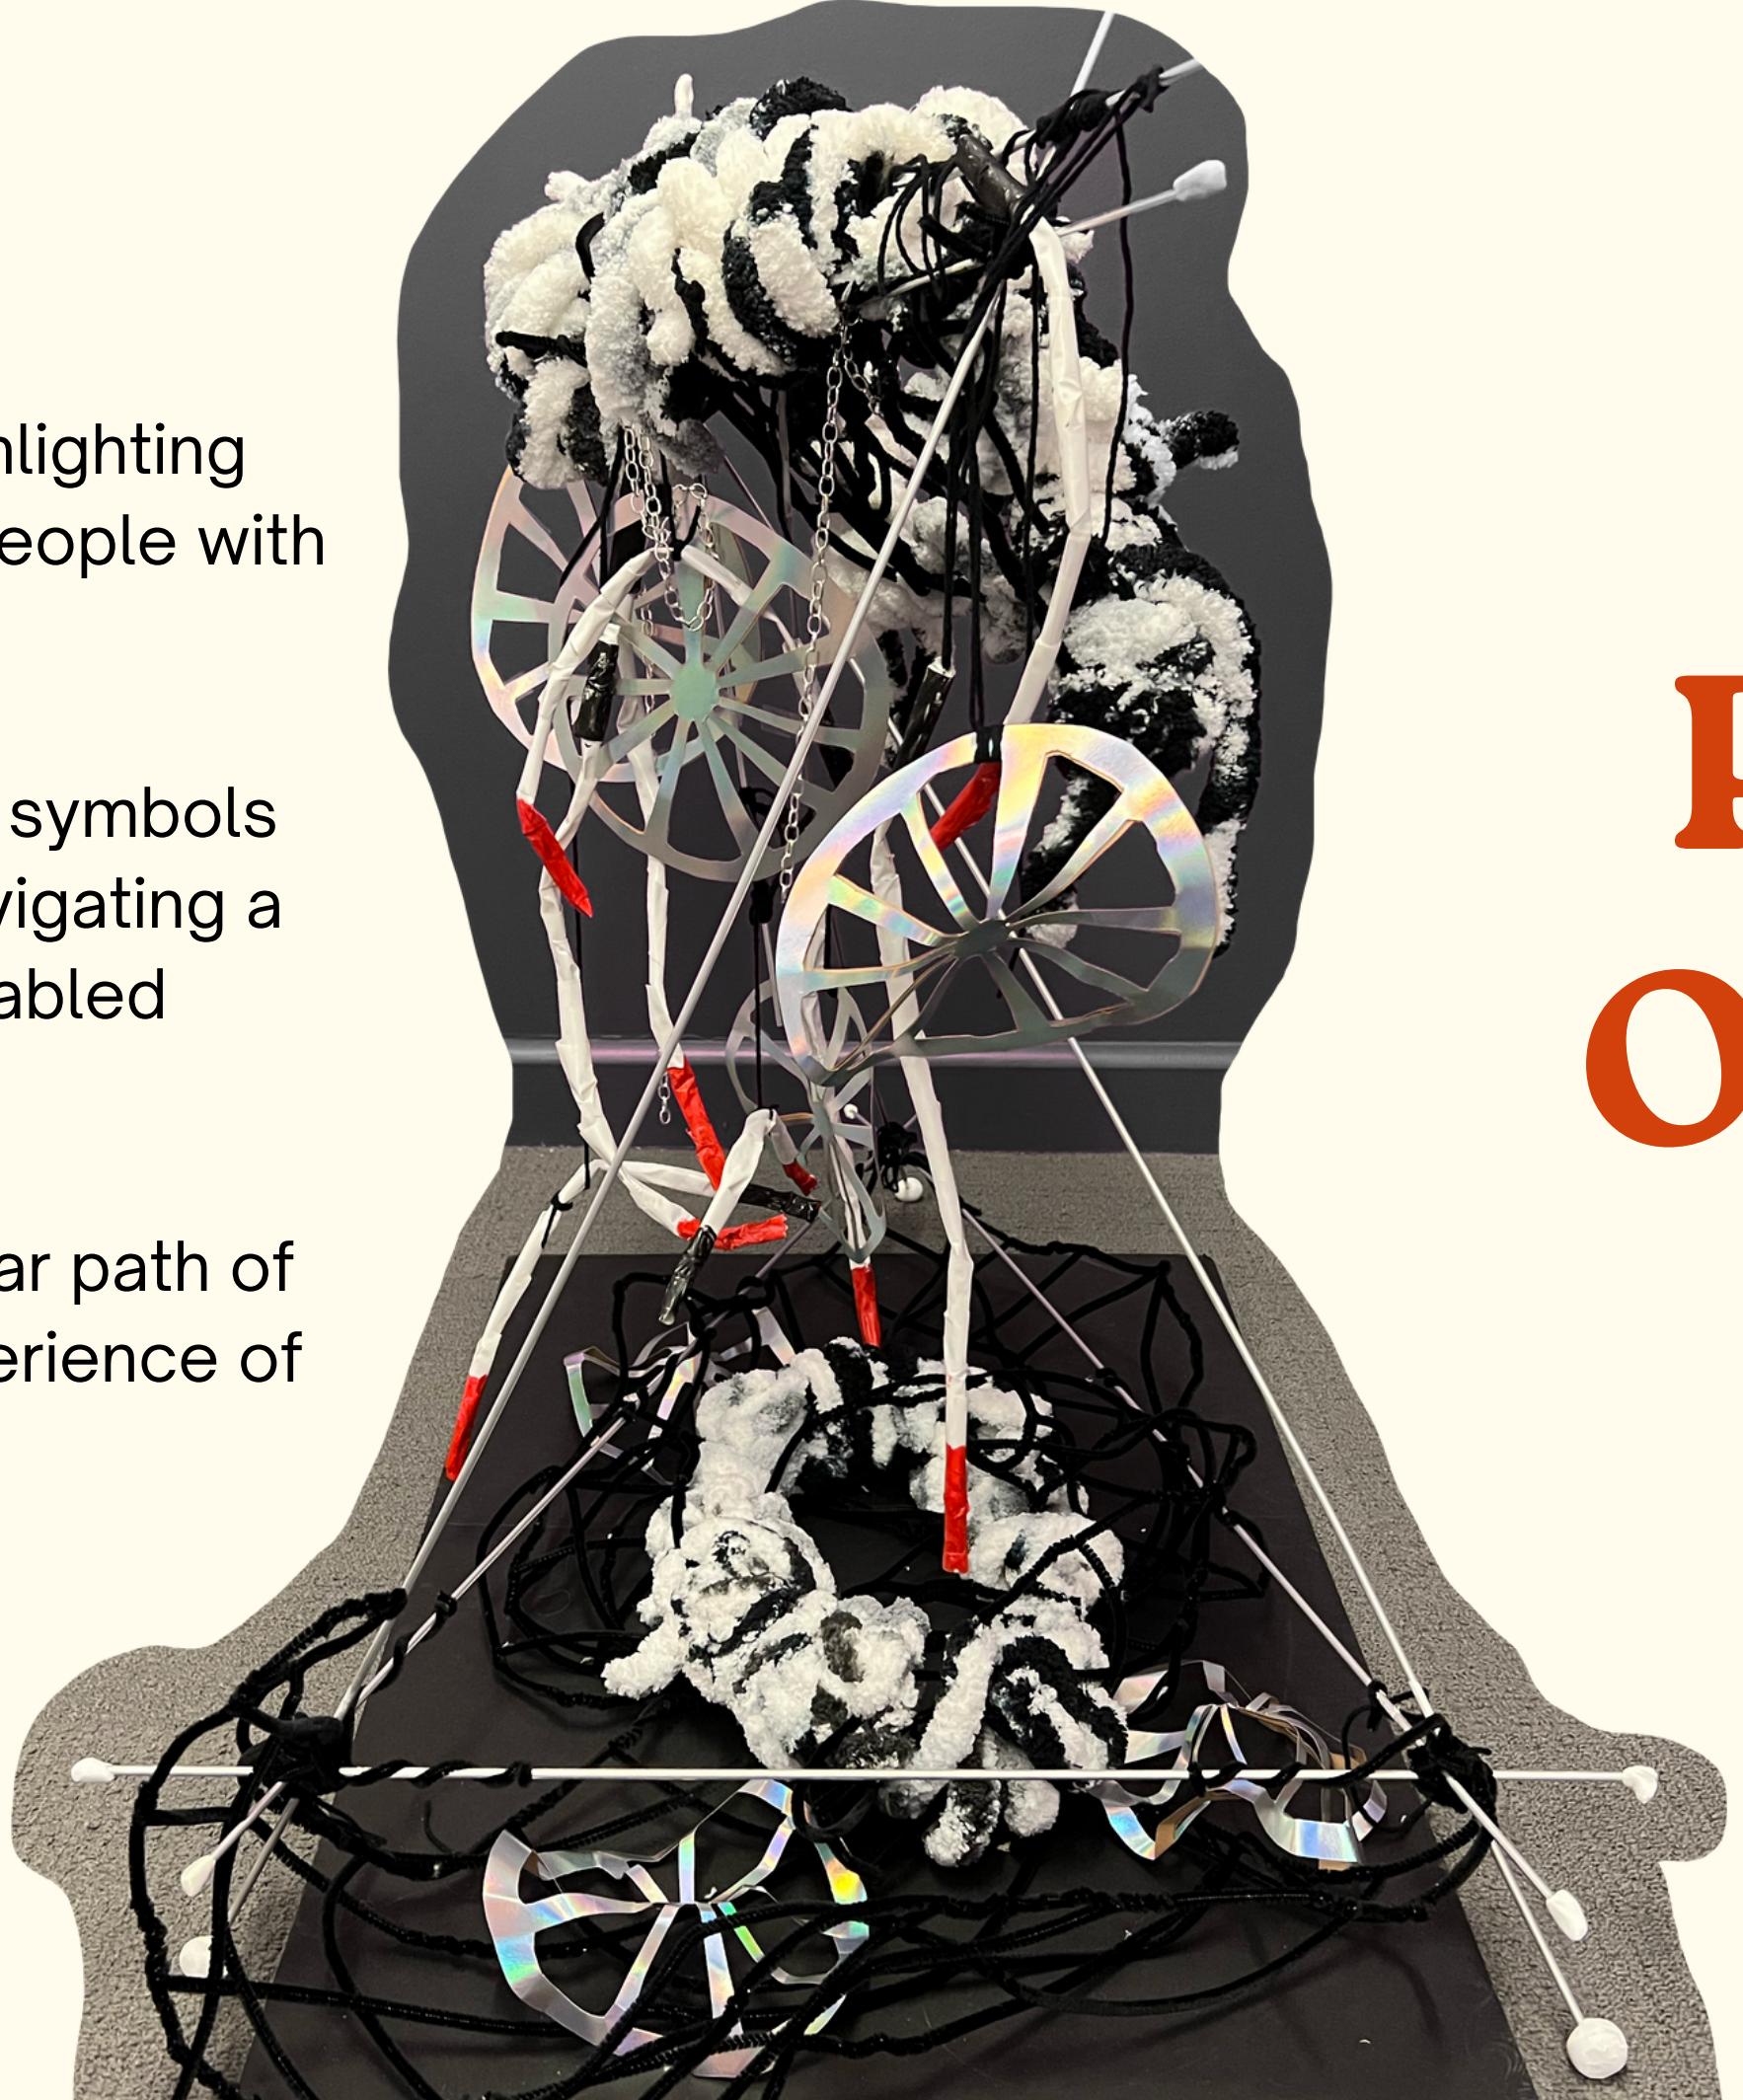

## Cultural Stereotypes

- Stereotypical cultural depictions persist, portraying disabled individuals as weak, tragic figures lacking personal agency.
- Derogatory language and ableist humor contribute to continued stigma and prejudice.

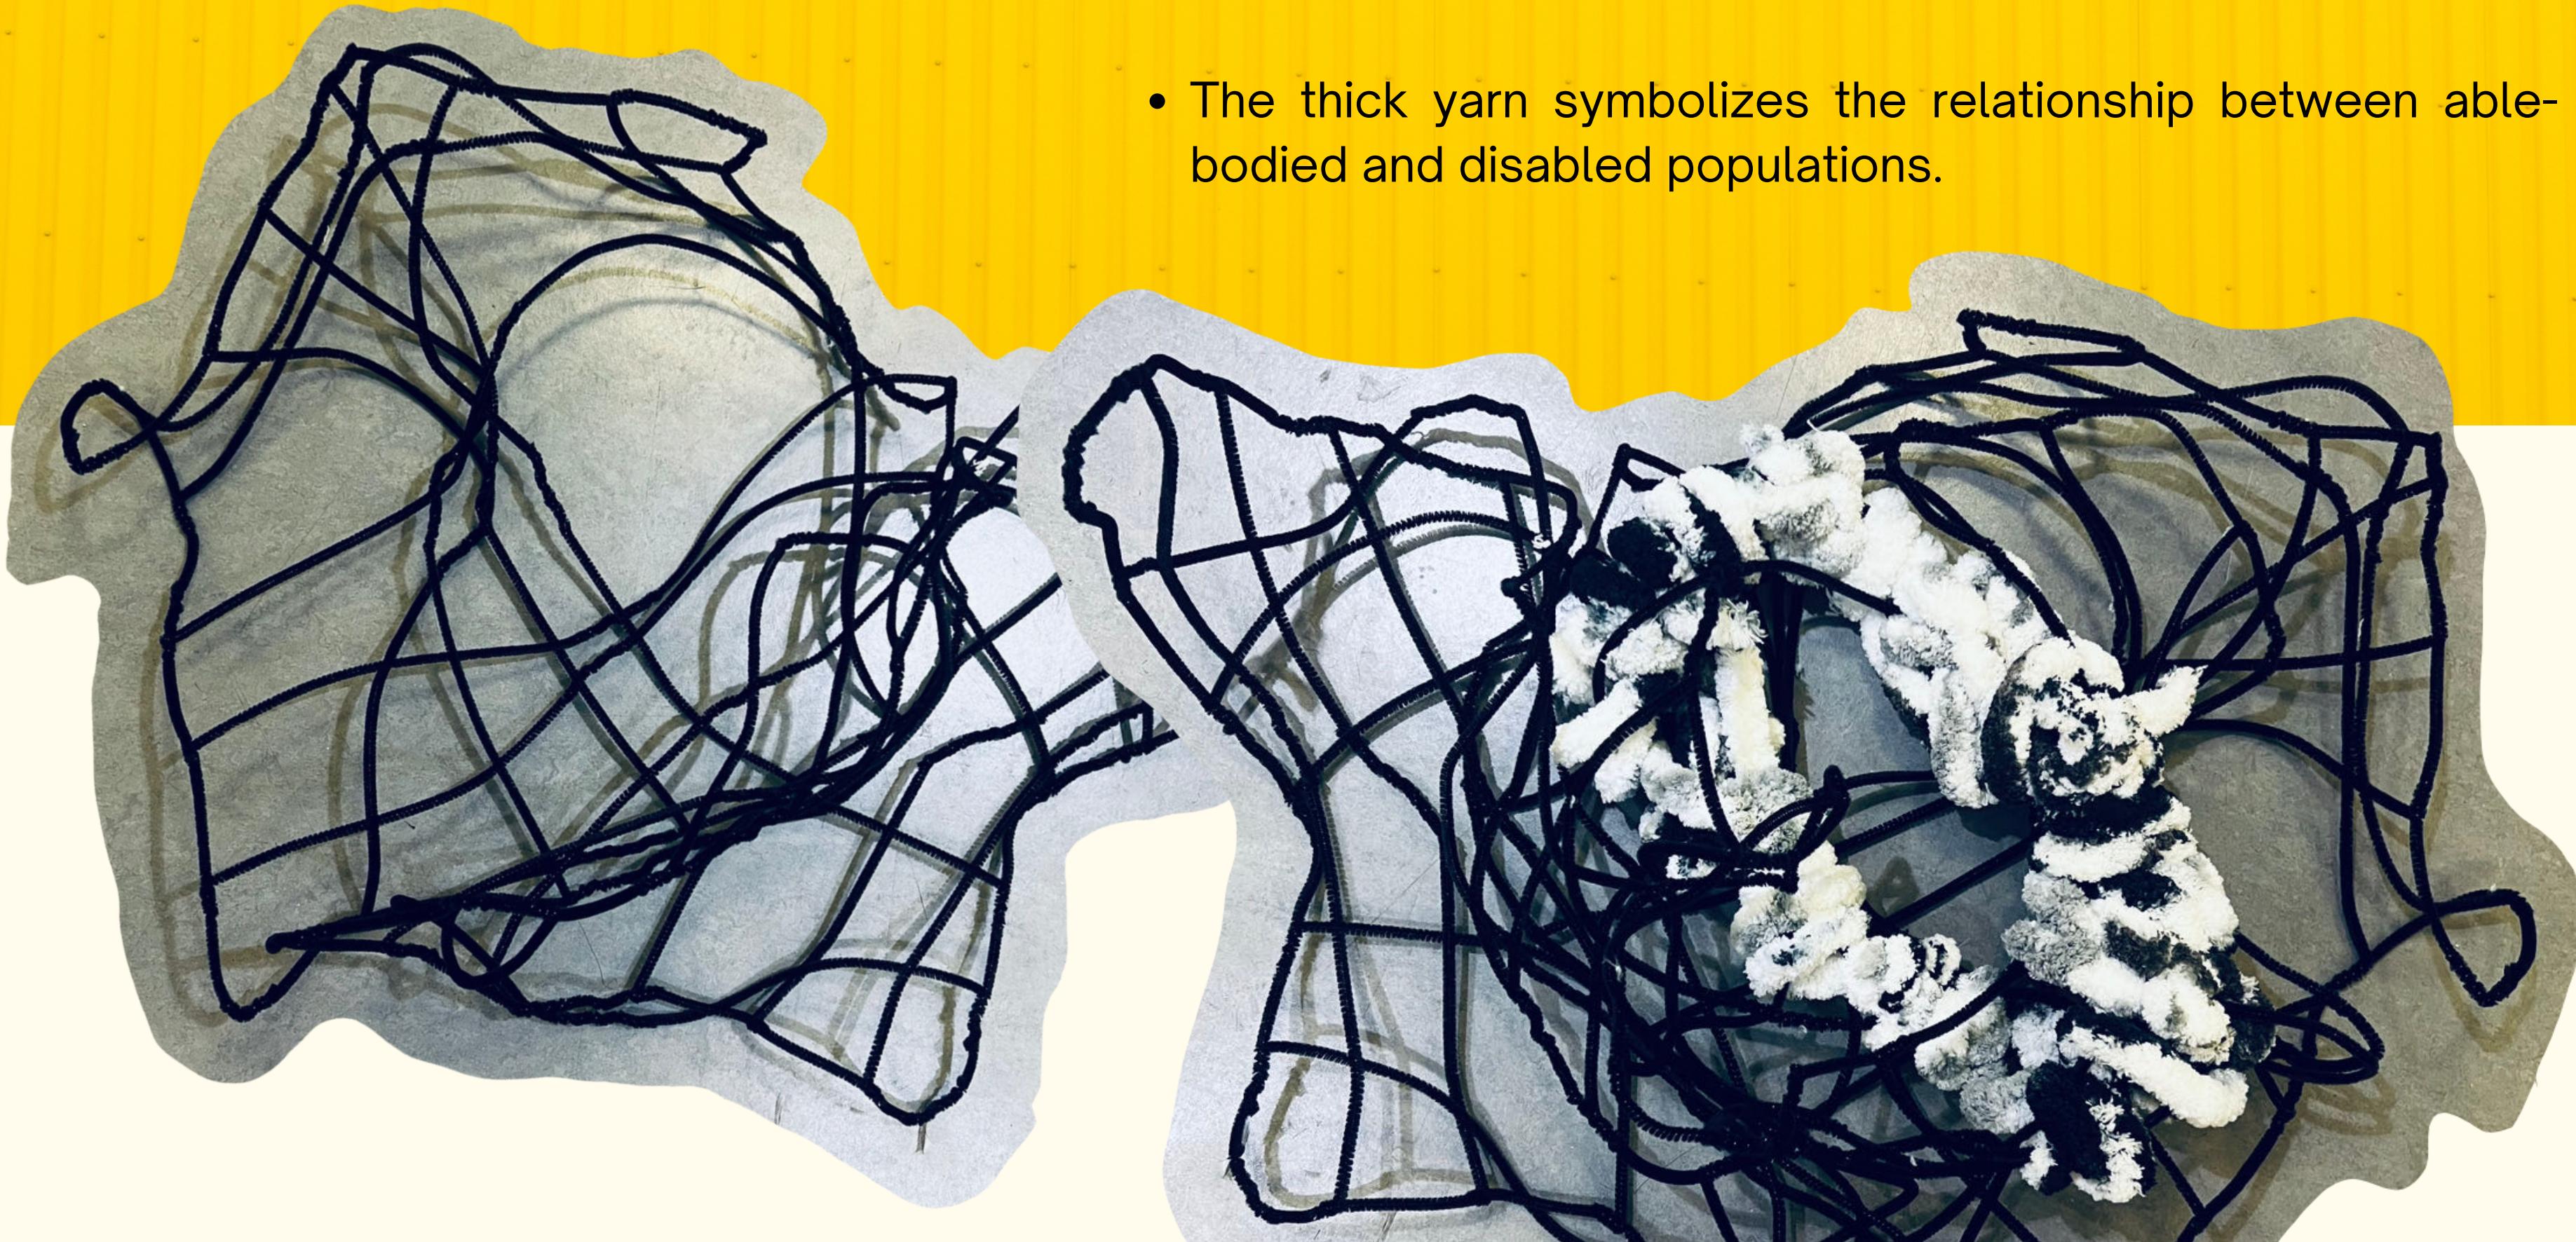

# Project Outcome

- My project focuses on highlighting daily obstacles faced by people with disabilities.
- It transforms crutches into symbols of unique challenges in navigating a world not designed for disabled individuals.
- Visitors walking the irregular path of crutches gain a direct experience of these difficulties.

# Design Process

- The twisted sticks and black yarn represent the complexity of life for people with disabilities.
- The thick yarn symbolizes the relationship between able-bodied and disabled populations.

## White Cane Design

- The white cane design represents the hardship faced by the blind in an unaccommodating environment.
- Crooked shape serves as a profound reflection of their real situation.

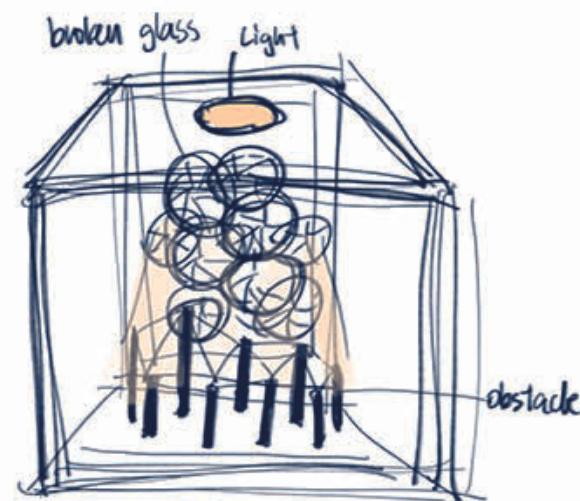

## Wheelchair Design

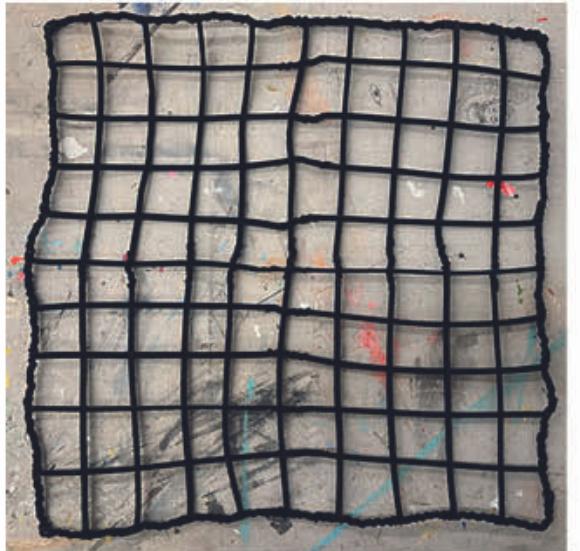

- Reflective material on the wheelchair highlights the existence of wheelchair users in society.
- Glaring reflective effect symbolizes their difficulty in being noticed and the need for attention.

# Making Process

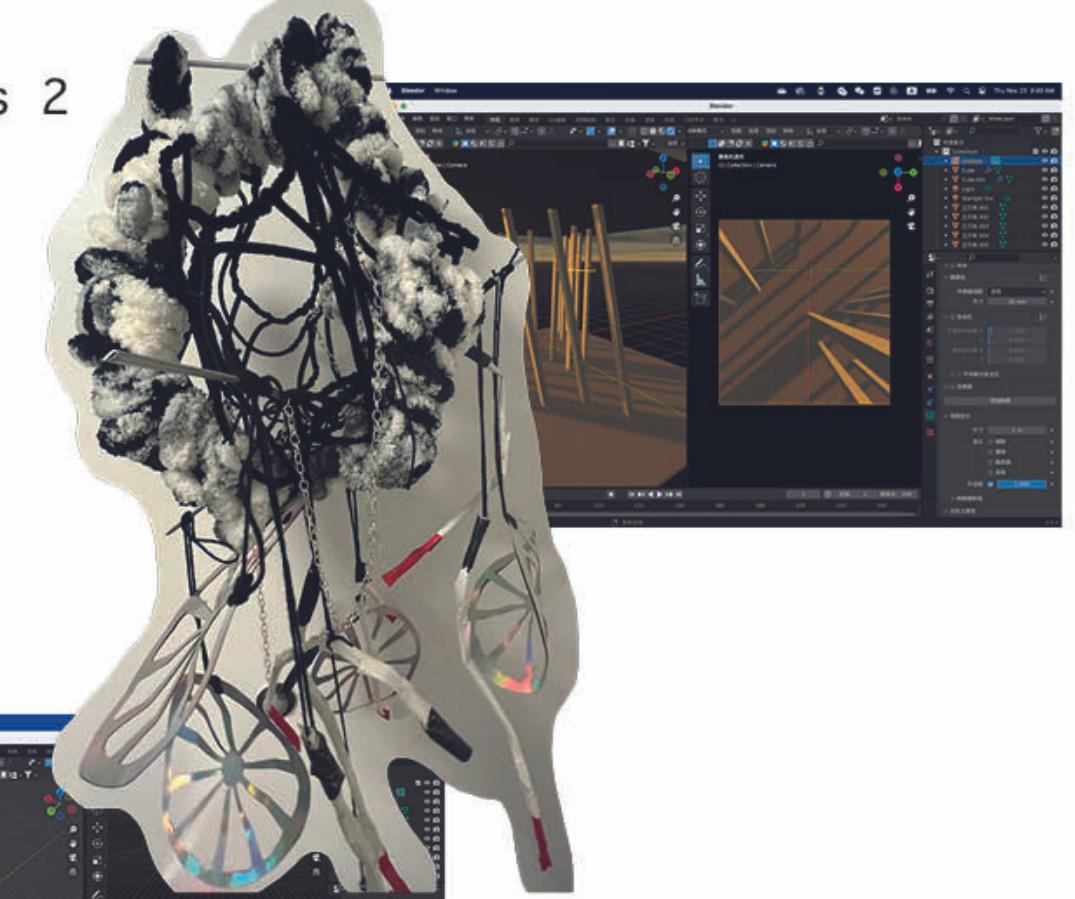

## Initial Sketch

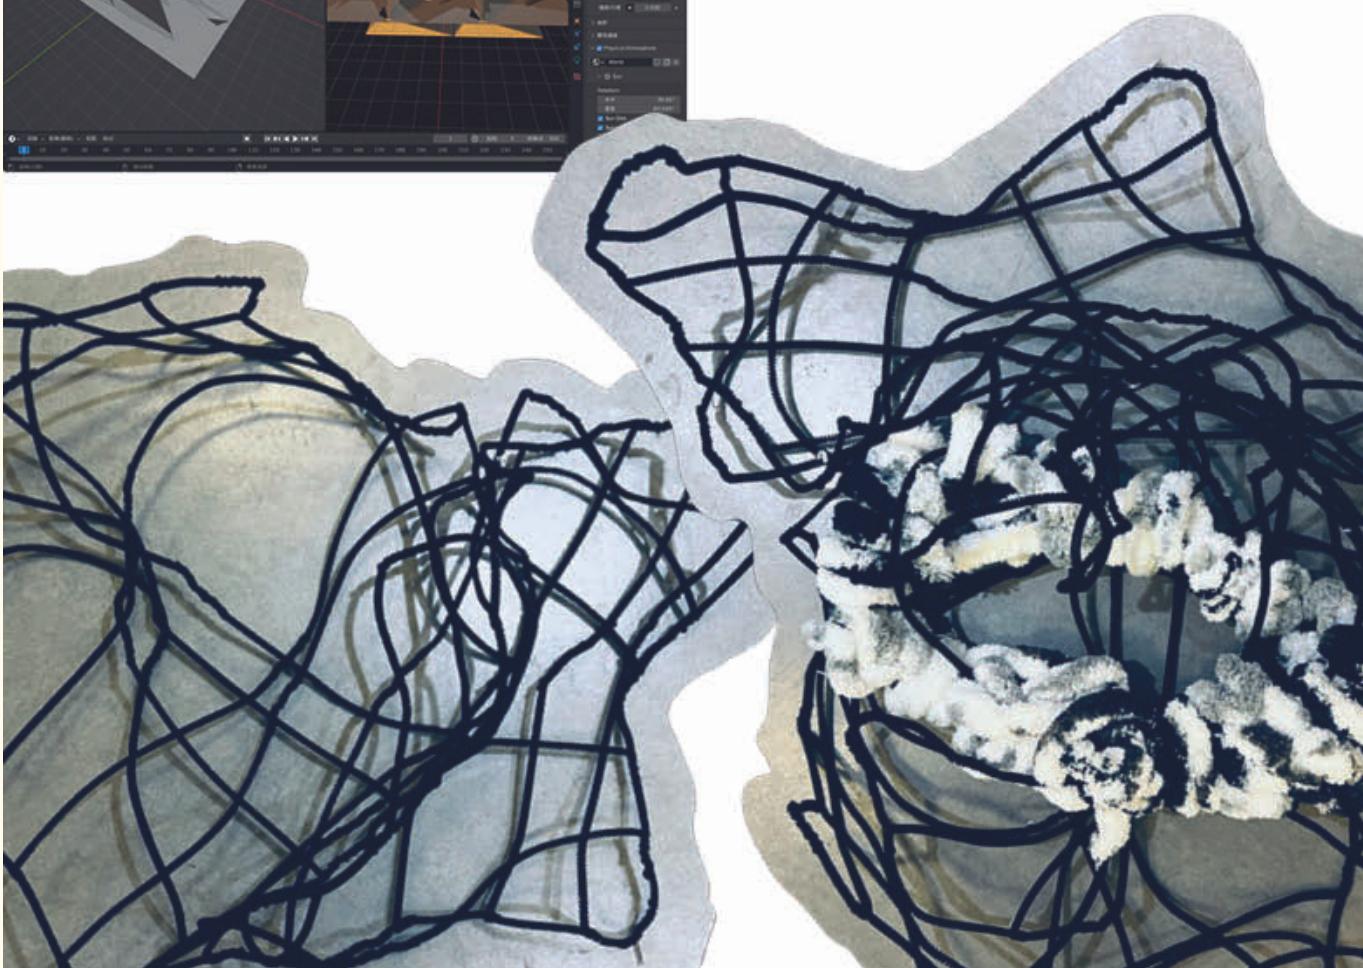

process 1

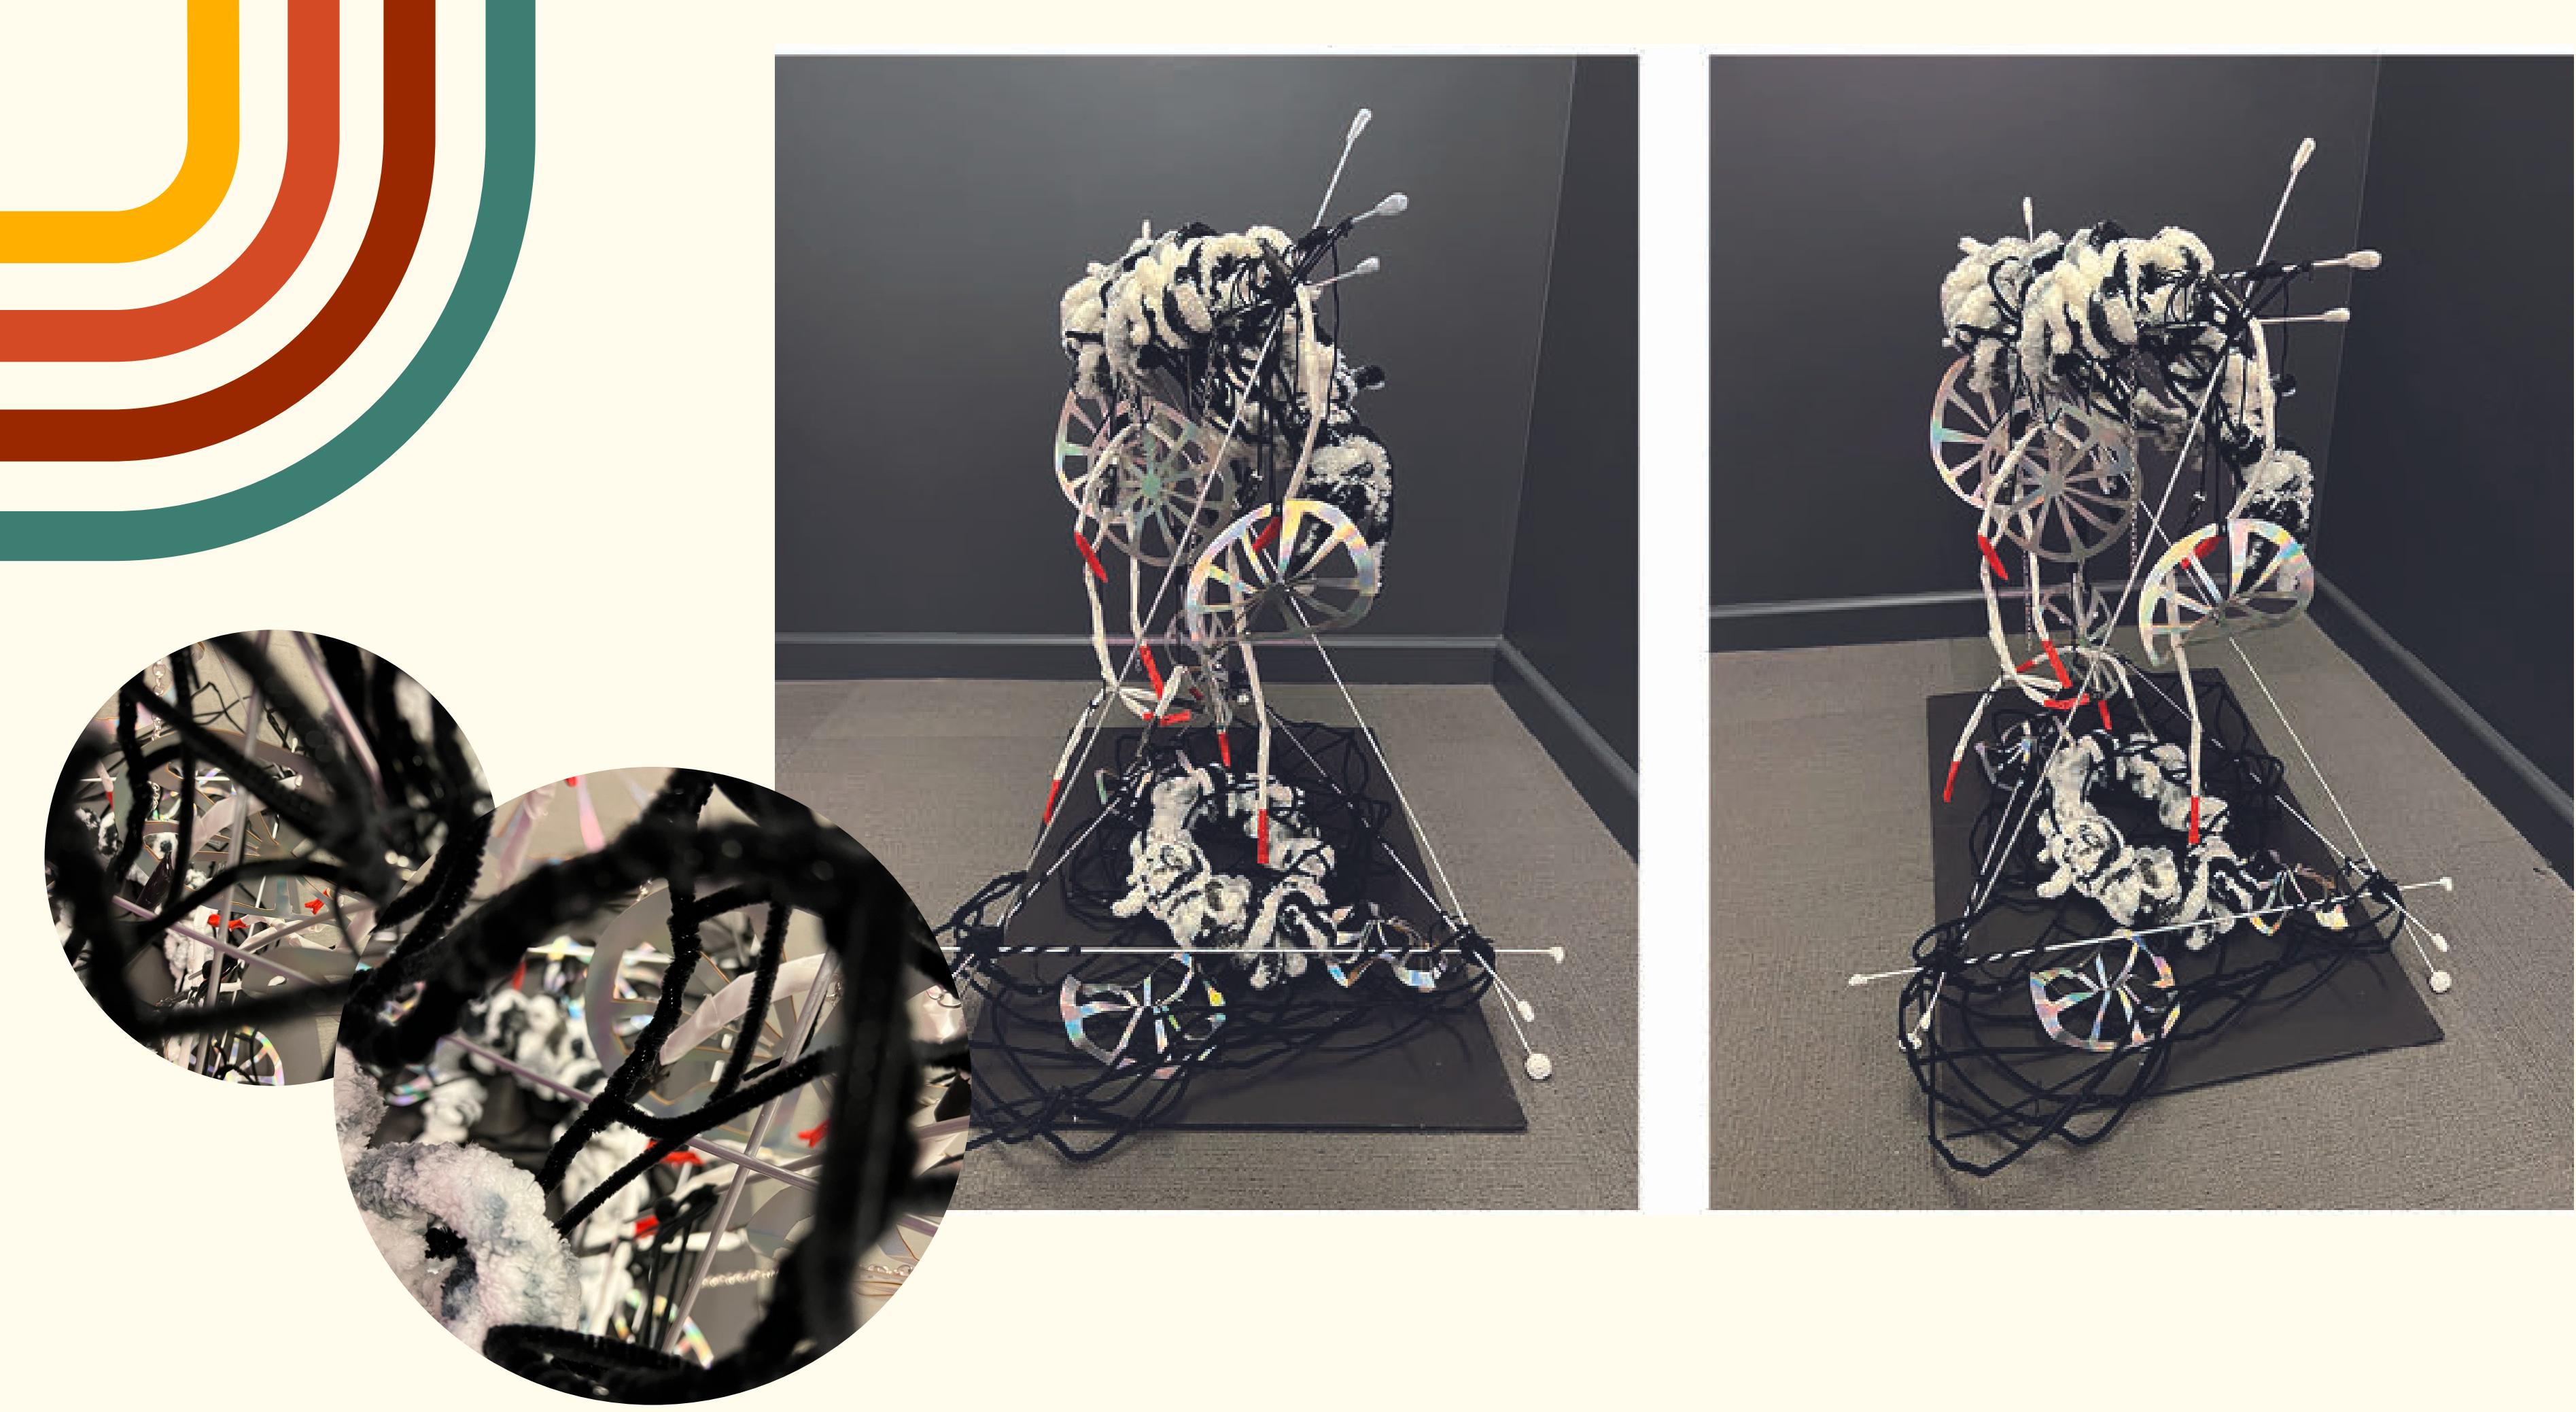

process 2

process 3

# Budget

**\$26,000**

Installation Art Production

**\$7,200**

Social Engagement and  
Partnerships

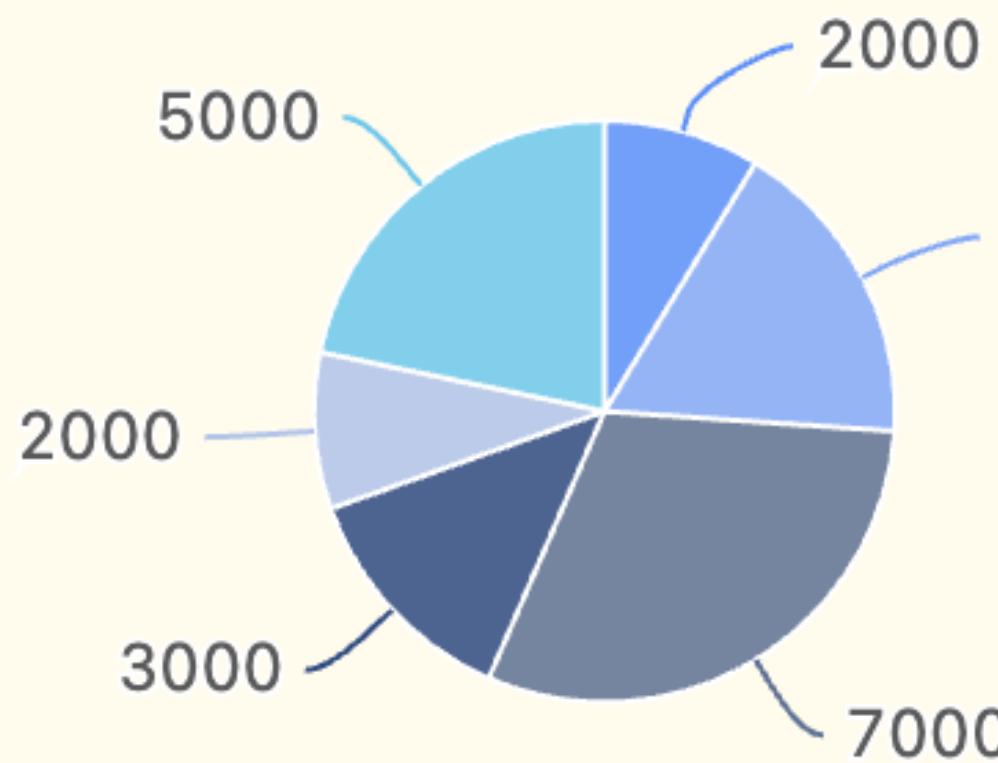

**\$16,000**

Advocacy and Promotion

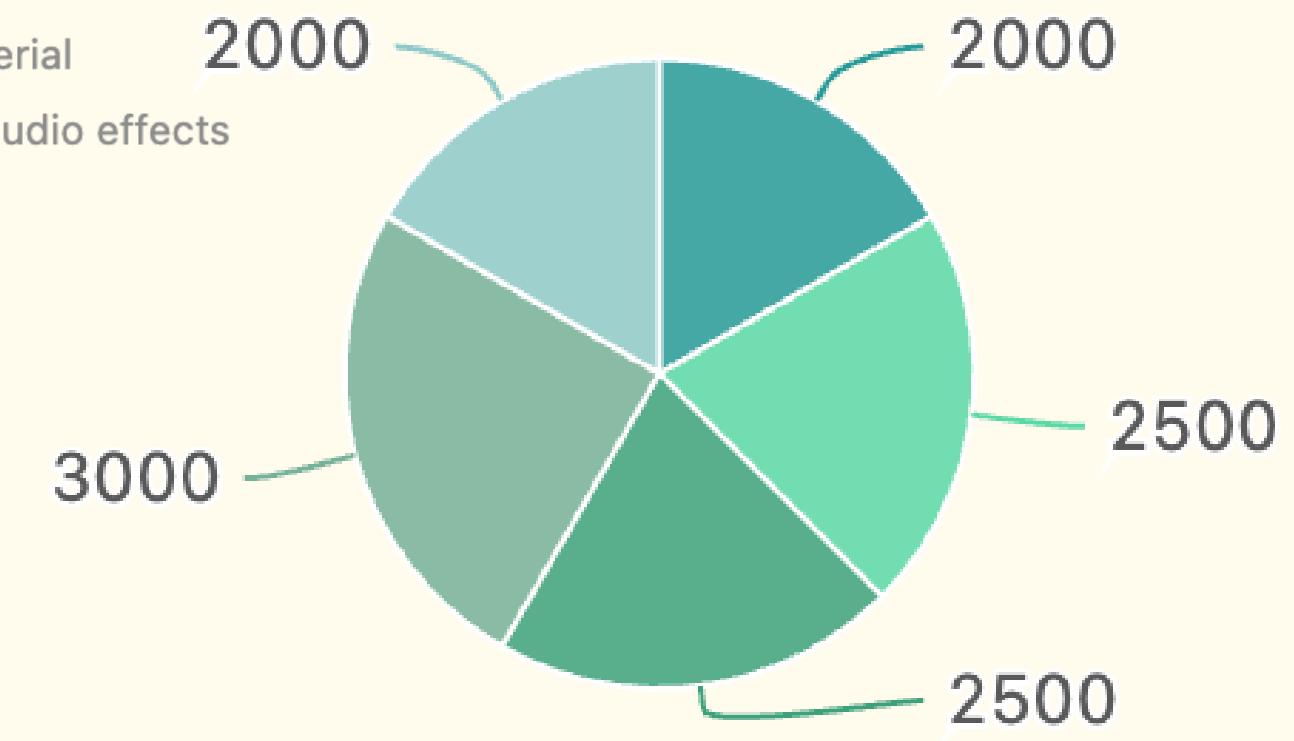

# Pie Chart

## Installation Art Production

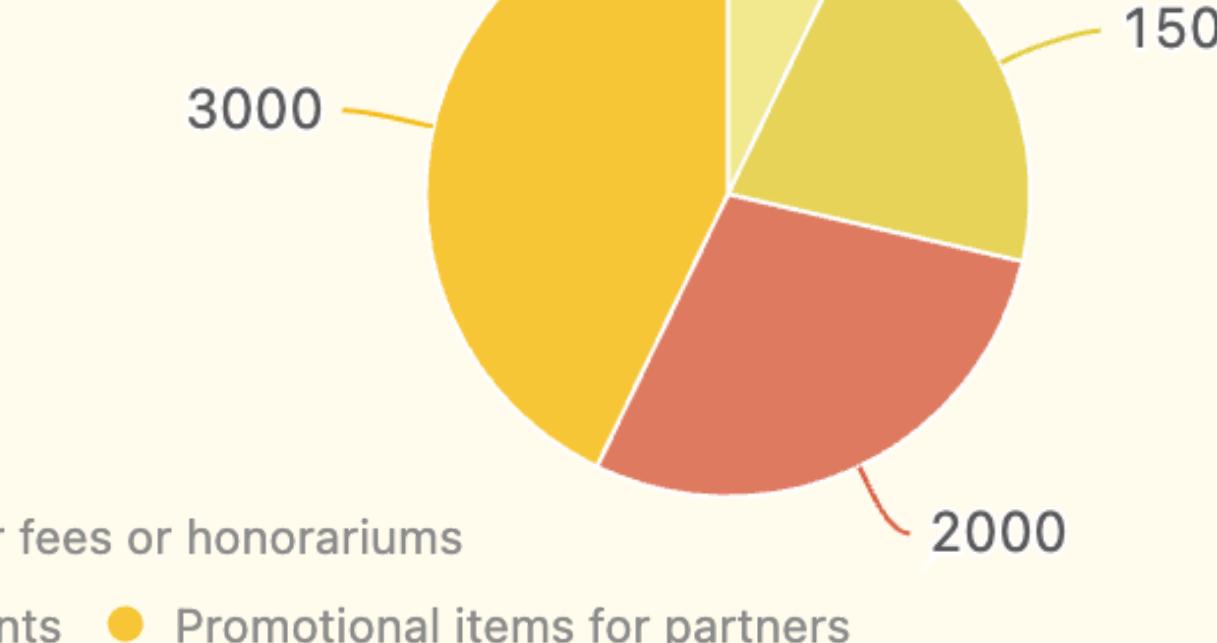

- Graphic design software licenses
- High-quality reinforcement material
- Technicians for installation
- High-quality welding material
- Equipment rental for lighting and audio effects

## Advocacy and Promotion

- Design and printing of business cards
- Printing detailed exhibition brochures
- Graphic design services for brochure layout
- Videography and editing services
- Social media management tools and software

## Social Engagement and Partnerships
